## **2002 Awards Dinner**

The annual TCYC Awards Dinner is being held Tuesday, November 5th from 6-10pm at Ouisi Bistro, 3014 Granville St. in Vancouver. The cost for dinner is \$25.00 per person, including tax and gratuity. Ouisi Bistro has put together a great 3-course dinner menu for us with the choice of two appetizers, entrees and desserts, plus coffee or tea. Beer, wine and other alcoholic beverages are not included in the price, but may be purchased at the restaurant. Please bring your payment for the meal to the restaurant (cash or cheque made out to TCYC only) and give it to Bev DeMonye when you arrive. Reservations are required in advance, so please contact Penny Bax (604-872-7142) by October 31st to confirm you will be attending and how many people will be in your party. As always, nominations for the much coveted TCYC Log Boom Award will be an important part of our evening, so be sure to bring your tales, tall or otherwise, of the most embarrassing Tiddly escapade you've witnessed this year!

## **September Meeting**

Sailor and boat artist Dan Berube returned in September to give a slide show about his work. Dan began painting boats when he was fourteen years old and obtained formal art training at the Ontario College of Art, in Florence, Italy and at the University of Western Ontario. In his twenty years experience as an artist, Dan has had many exhibitions of his work across Canada from Ottawa to Vancouver and has done many commissioned pieces for clients in Canada and the U.S. Phil DeGeller was the fortunate winner of the watercolour print raffled off by Dan at the meeting. To learn more about Dan's work visit his website at [www.boatportraits.com](http://www.boatportraits.com). A personalized boat portrait is a very special gift. If you are interested in commissioning a portrait of your sail boat, or that of a friend, call Dan at 604-792-0797 for prices and additional information.

## **TCYC Summer Shorts**

A very unusual thing happened this year in the July drifting series, WIND. So much wind that the editor was obliged to leave the barbie unlit for one race. Normally the main effect of banning spinnakers is very light winds.

Thanks to Phil DeGeller, John Payne, Bruce Ward, and Rob Sutherland for being race committees.

### TCYC Last Chance

The editor missed this race (out cruising the Gulf Islands) so all we have are results and a thank you to Tom Bendle, our fleet captain, for doing race committee.

## **Americas Cup**

There are lots of good websites with information on all the action. The Louis Vuitton Cup is well underway with fair coverage on the Outdoor Life Network. Good sites to start at include [www.facetheelements.com](http://www.facetheelements.com), [www.nzherald.co.nz/americascup](http://www.nzherald.co.nz/americascup), [www.americascup.co.nz](http://www.americascup.co.nz), and [www.americascup.com](http://www.americascup.com). There is lots to interest the racing sailor: crews are switching to assymetrical spinnakers in only 10 knots this year and some demonstrations of unusual pre-start strategies.

## **The Winks**

Last month's Winks suggested the club was looking for a new editor. Thanks to the efforts of Michael Spearing in providing new reporters to provide content, your current editor will be staying on. Please help me make the Winks interesting by emailing me your stories (racing, cruising, whatever).
